

Spring has Sprung

A delightful tale that takes the audience into a world of fantasy but at the same time they will be learning very interesting facts about many creatures and insects.

Sarafina the Sparrow is planning her spring wedding and all the garden creatures from the snail to the fleas hop, skip, jump and crawl along to help. As always there is much audience participation in the puppet show and some of the topics covered include:

- Life Cycle of the butterfly
- Characteristics of insects
- Creatures that live near the water
- Importance of using our talents and opportunities to serve one another.
